The Hyundai U engine is a series of three or four-cylinder diesel engines made for automotive applications by the Hyundai Kia Automotive Group. The U series of engines includes the smallest automotive diesel engines produced by Hyundai. 1.1 L (D3FA) The 1.1 L (1,090 cc) U diesel engine is a 3-cylinder version of the 1.5L U series unit and is made with cast iron block and aluminum cylinder head ...

Hyundai U engine - Wikipedia

It is true that Hyundai's CRDI engines are known for being smooth and silent despite being diesel, but comparing it with Honda's iVtec petrol would be an unfair comparison. Diesel and petrol engines have very different basic characteristics. The petrols are known for being lightweight, silent, smooth and high revving.
